TradeMark Nitrogen Expands Product Line

TAMPA, Florida (April 1, 2013) – TradeMark Nitrogen, a US manufacturer of liquid nitrogen products, has successfully installed new mixing equipment and storage tanks to produce manganese and zinc nitrate solutions.

TradeMark produces ammonium nitrate and magnesium nitrate solutions. By adding manganese and zinc lines, the company has expanded its plant nutrition line of products. TradeMark is now shipping bulk and 260 gallon mini-bulks of manganese and zinc solutions. The first customer bulk shipment went out on Friday, March 29.

“We constantly look for ways to better serve our customers,” said Mike Barry, President of TradeMark Nitrogen. “By increasing our capabilities, we’re able to provide more product to existing customers while attracting new ones. We are thrilled to add both of these products to our lineup.”

The plant addition was christened on Friday, March 29 with a brief ceremony.

About TradeMark Nitrogen
