TradeMark Nitrogen Celebrates 30th Anniversary

TAMPA, Florida (June 10, 2013) – TradeMark Nitrogen, a US manufacturer of liquid nitrogen products with its headquarters in Tampa, is celebrating its 30th Anniversary this year. The company was formed in March 1983.

“In any business, 30 years is a significant accomplishment, but this is a story that’s about much more than longevity,” said Rick Brandt, CEO of TradeMark Nitrogen. “This is a story about continuing to keep your eye on the market and evolving to delight your customers.”

TradeMark produces ammonium nitrate and magnesium nitrate solutions. As the company looks to the future, it has expanded into manganese and zinc solutions.

“You don’t last 30 years without staying in touch with your customers,” said Mike Barry, President of TradeMark Nitrogen. “We have to continue to look for new opportunities, questioning the status quo and looking for areas to improve our business activities.”

TradeMark’s roots go back even farther than 1983. Corporately, it was preceded as Southern Nitrogen Company which was formed in 1954. Production started in 1959 at the Tampa site which later merged with Kaiser Aluminum & Chemical Corporation in 1966. TradeMark Nitrogen Corporation was spun from Kaiser as an independent company in 1983.

TradeMark will mark its 30th with a commemorative paint scheme on the TMN #31 car at the NASCAR Nationwide Series race on July 5 in Daytona, FL.
