TRADEMARK NITROGEN – FLORIDA SOUTHERN COLLEGE SCHOLARSHIP

TradeMark Nitrogen and the FFAA Scholarship Fund award \$2,500 FSC scholarship to Joel Stuckey

St. Augustine, Florida (January 16, 2015) – The TradeMark Nitrogen-Florida Southern College (FSC) Scholarship was awarded to Joel Stuckey at the FFAA's Annual Winter Meeting last week in St. Augustine, Florida.

Thanks to various fundraising events including an annual sporting clays tournament and a golf tournament held in May, the FFAA and its member organizations were able to provide a record 15 scholarships totaling more than \$30,000 to more than qualified students throughout the state of Florida. It is the mission of the FFAA that some of these students will utilize their talents to improve Florida agriculture through research or employment in the Florida agribusiness industry.

Joel Stuckey was a more than deserving recipient of this year's TradeMark Nitrogen-FSC Scholarship. Joel is currently a senior in the Citrus Program at FSC with a 3.7 G.P.A. He is extremely interested in research of any and all plants and helping to figure out how to cure various diseases affiliated with these crops, specifically HLB or Citrus Greening. He plans to pursue his education at the University of Florida where he will pursue his Master's degree in General Horticulture. Thanks Joel, we wish you the best of luck with your future endeavors.

Anyone who would like to apply for a scholarship in 2015 or who is looking for further information on other scholarships that the FFAA has provided should visit <http://www.ffaa.org/scholarship.html>.

About the Florida Fertilizer & Agrichemical Association (FFAA)

FFAA was originally formed in 1932 as the Florida Agriculture Research Institute, Inc. Its mission was to furnish information to the agricultural community on fertilizer and agrichemical use. In 1986, the name was changed to Florida Fertilizer and Agrichemical Association, Inc. Today, FFAA represents the fertilizer, limestone and agrichemical industries that operate in Florida. FFAA's main objectives are to enhance the public's perception of the Florida's fertilizer and agrichemical industry and to promote the safe, responsible use of these products.

About TradeMark Nitrogen Corp.

TradeMark Nitrogen Corporation is a wholesale manufacturer, seller and distributor of bulk commodities for industrial and agricultural customers throughout the U.S. With over 30 years of experience in the fertilizer industry, our highly trained staff has earned a reputation for reliability and performance.
